37th-45th															0.56%

Places in the prizepool are capped at 15% of the initial fields entries

Turneringer med re-entries/rebuys vil også bruge denne præmiestruktur, men med justering af deltagerantallet efter følgende model:

Det samlede beløb for re-entries, re-buys og add-ons lægges sammen. Dette beløb halveres. Herefter opgøres, hvor mange entries, det halverede beløb svarer til. Dette antal lægges til det oprindelige antal entries for at finde den kolonne i præmiestrukturen, der skal bruges til at beregne præmierne.

Udbetalingerne skal annonceres senest 30 minutter efter, at re-buy-perioden er afsluttet.

Turneringslederen forbeholder sig retten til at foretage justeringer i disse tal, afhængigt af den enkelte turnering, men vil tilstræbe at forblive så tæt som muligt på denne skabelon.

Places in the prizepool are capped at 15% of the initial fields entries
